### SUMMARY

**Dynamic Full-Stack Developer** Experienced in designing, developing, and deploying scalable, high-performance web applications. Skilled in building responsive and interactive frontends using **React.js/Next.js**, robust backends with **Node.js/Express.js**, and efficient **MongoDB** database solutions. Strong expertise in **state management**, **API integration**, and delivering seamless user experiences across devices. Proven ability to thrive in fast-paced environments, leveraging excellent **problem-solving**, **communication**, and **collaboration** skills to drive projects from concept to deployment.

### EDUCATION

<b>MA in English Literature</b> , DBF Dayanand College Solapur	2022
Passed with 80%	Solapur - 413002
<b>BA Literature in English</b> , DBF Dayanand College Solapur	2020
Passed with 80%	Solapur - 413002
<b>12th Standard</b> , Dayanand College Art and Science Solapur	2017
Passed with 82.31%	Solapur - 413002

### TECHNICAL SKILLS

#### Frontend

React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Accessibility

#### Tools

Git, GitHub, Postman, Render, Netlify, Vercel , Npm

#### Authentication

JWT, Firebase Authentication, OAuth2, Protected Routes

#### Backend & APIs

Node.js, Express.js, RESTful APIs, MongoDB, Axios

#### State Management

Redux Toolkit, React Hooks, Context API

#### Soft Skills

Problem-Solving, Logical Thinking, Collaboration, Adaptability, Communication

## CERTIFICATE AND TRAINING

---

### MERN Stack Developer Training, NareshIT, Hyderabad

Hyderabad

- Completed a 6-month intensive program mastering HTML, CSS, JavaScript, React, Redux, Node.js, and Express.js.
- Gained hands-on experience by developing full-stack projects using React for frontend development focusing on responsive web applications, RESTful API integration, and clean code practices.

## PROJECTS

---

### PlayBuddy(video Streaming platform), (React.js, Node.js, MongoDB)

07/2025 – 08/2025

- Developed a scalable 3-tier full-stack application with React frontend, Node.js/Express backend, and MongoDB.
- Created a responsive and dynamic UI with TypeScript and Tailwind CSS, featuring video browsing, like/dislike, search, and watchlist.
- Optimized state management with Redux, improving video interaction response time by 15%.
- Designed secure RESTful APIs with JWT authentication, role-based access, and admin routes.
- Enhanced UI with Framer Motion animations, custom SVG icons, and robust error handling.
- Live Demo: <https://playbuddys.netlify.app> 
- GitHub: <https://github.com/SachinParshetti/PlayBuddy.git> 

### TaskMaster, (React.js, Node.js, MongoDB)

07/2025 – 07/2025

- Built a full-stack task management app with user authentication and CRUD operations.
- Implemented JWT authentication with HTTP-only cookies, securing against XSS/CSRF attacks.
- Designed a responsive dashboard with React 19, Tailwind CSS, and MUI.
- Integrated Formik + Yup validation, React-Toastify, and SweetAlert2 for real-time user feedback.
- Configured MongoDB Atlas cloud database and developed RESTful APIs.
- Deployed backend on Render and frontend on Netlify.
- Live Demo: <https://taskmanagersapp.netlify.app> 
- GitHub: <https://github.com/SachinParshetti/Task-master.git> 

### Personal Portfolio, (Next.js, React, Tailwind CSS)

08/2025 – 08/2025

- Designed and developed a fully responsive personal portfolio using Next.js 15, React, and Tailwind CSS.
- Delivered an interactive UI with Framer Motion animations, Type Animations, and Parallax scrolling effects.
- Implemented dark/light theming and accessibility with Next-Themes, Radix UI, and Lucide Icons.
- Added skill charts (Recharts), project carousels, and dynamic sections.
- Optimized performance with SSG (static site generation) and image optimization.
- Deployed on Vercel with CI/CD pipelines and global CDN.
- Live Demo: <https://sachin-parshetti.vercel.app> 
- GitHub: <https://github.com/SachinParshetti/portfolio.git>
